## Camix Mixer

For all your Mixing Requirements

### Introduction

The range of Millitec's Camix tumblers and blenders offer reliable and consistent mixing at an affordable price. The tumbler includes a revolutionary blade design, specifically engineered to mix the contents gently without damaging the product or raising product temperature. The main body is constructed from polished stainless steel combined with an additional replaceable scraper. All machines come with motorised tilt for easy loading and discharge.

The Camix modular construction allows for parts to be interchanged so each mixer can be tailored to individual company requirements. The low loading height enables safe and convenient loading and can be supplied with Euro bin lifter.

Vacuum evacuation is available to improve mixing quality and reduce product mixing time. High shear blenders are also available which are ideal for oils and dressings.

The machine has the facility to be networked onto our production monitoring/planning systems to enable uploading of batch history and downloading of mix programmes.

### Features

- Robust mixing spur gearbox
- Variable blade speed
- Variable tilt speed
- Available in: 150l, 300l and 600l
- Low loading height
- IP65 protection rating
- Push button vessel tilting
- Vacuum evacuation option
- Mounted on castors for easy location

### Millitec also manufacture:

- Cantilever conveyors for total hygiene
- Sanitisers
- Mixers and Tumblers
- Full range of sandwich lines
- Process control systems
- Palm top data acquisition
- Ultrasonic cutters
- CIP systems

### Specifications

Capacity/l:	150	300
Footprint/mm:	850x1080	1000x1080
Mix Power/kW:	1.1	1.1
Mlx Speed/rpm:	2-25	2-25
Lift Power/kW:	0.37	0.37
Lift Speed/rpm:	0.2 - 2	0.2-2
Capacity/l:	600	
Footprint/mm:	1200x1080	
Mix Power/kW:	2.2	
Mix Speed/rpm:	2-25	
Lift Power/kW:	0.75	
Lift Speed/rpm:	0.2 - 2	

**All machines are available for free trial or rental.**
