Innovation in Automation

SDL Accessories

Affordable, fully featured food production lines

Introduction

Millitec offer a full range of accessories for the diffusion production line to enable flexible and efficient production.

Butterer (SDLBM)

Twin lane buttering
Adjustable height for sandwich bread, rolls and baguettes
Butter boxes refillable during operation
Butter boxes quickly removable for easy cleaning
High capacity butter boxes
Fully adjustable spread thickness
Even spreading to the edge of every slice
Constructed from hygienic materials - natural acetal and stainless steel
Fully guarded for operator safety

Product Tray Holders (PTH)

Angled tray holders
Fully adjustable
To suit gastronorm trays

Flat Flush Tray Holders (PTHFF)

Flat tray holders
High packing density
To suit gastronorm trays

Work Stations (SDLWS)

Adjustable work stations
Suitable for use as cutting or packaging tables
Fully adjustable along the line
Fold flat when not in use

Millitec also manufacture:

- Cantilever conveyors for total hygiene
- Sanitisers
- Mixers and Tumblers
- Full range of sandwich lines
- Process control systems
- Palm top data acquisition
- Ultrasonic cutters
- CIP systems

Belt Washing (SDLCIP)

Fully automatic belt cleaning and washing system
Integrated vacuum drier

Indexing System (SDLIND)

Allows belt to advance a set distance and stop for a preset time
Gives full control over production rates
Allow integration to depositors

Depositor Control

In-built pneumatic solenoid and photocell to trigger depositor
Control of up to 2 depositors
Depositers fully controlled from touch screen

Scale Tables (SDLST)

Fully adjustable rigid scale tables
Allow scales to be fitted anywhere along the line

Waste Bins (SDLWB)

Waste bin designed to fit directly under the belt scraper.
Mounted on castors for easy removal
Speeds up the cleaning process and keeps the production hall looking clean

Production planning and monitoring INFORM

Data link between the PLC controlling the line and office based production planning and control system
Allows orders to be transferred direct to the line touch screen
Allows real time monitoring of the line including: production history, rates and downtime
